

## Stakeholder community on applications for food and feed products

### I. Background

On 25 November 2024, EFSA launched its first call for expressions of interest from stakeholders to join the stakeholder community on applications for food and feed products (the 'community'). The call remained open until 10 January 2025. In total, EFSA received 325 applications, with 310 confirmed as members of the community.

### II. Selection criteria

Applications were screened against the following criteria:

1. Being involved in, or have a professional interest in, at least one of the areas for the applications for regulated products, defined as: Animal welfare; Biological hazards; Feed additives; Food contact materials; Food improvement agents; GMOs; Novel foods and traditional foods; Nutrition; and Pesticides.
2. Belonging to one of the stakeholder categories identified by EFSA: Business and food industry; Consumer organisations; NGOs and advocacy groups; Distributors and HORECA; Practitioners; Academia; and Farmers and primary producers.

### III. Members' organisations

The following table lists the companies/organisations to which the confirmed members are affiliated, as stated by them in their expression of interest form.

Organisation	Stakeholder category <sup>1</sup>
21st.BIO A/S	Business and food industry
4ReValue	Business and food industry
AB Enzymes	Business and food industry
AB InBev	Business and food industry
Abad Family Group S.L.	Practitioners and consultants
ADAMA	Business and food industry
ADM	Business and food industry
ADM Animal Nutrition	Business and food industry
ADM International Sarl	Business and food industry
Affinity Petcare	Business and food industry
Agrochemie Ltd	Business and food industry
Agro-Chemie Ltd., Hungary	Business and food industry

<sup>1</sup> Due to a mismatch between EFSA's definitions of stakeholder categories and the definitions adopted by stakeholders, some adjustments in the category were made.
